

the bamboo retreat

...a truly himalayan boutique-hotel with panorama restaurant

**Wanted:
Volunteers with experience in
PERMACULTURE & ORGANIC FARMING**

Set on 3 acres of terraced paddy-fields and patches of forest Bamboo Retreat (www.bambooretreat.in) is located a 40-min. drive away from the Himalayan State of Sikkim, India.

On our land we cultivate a small amount of local and common varieties of vegetables, flowers, medicinal plants and herbs organically. It is our aim to transform the 0.5 to one acre of terraced paddy-land into a thriving garden where organic farming and permaculture techniques are applied. Our team of seven permanent members would be delighted to host you on a working-holiday: Help us improve the quality of our soil and introduce gardening-techniques with your practical skills in permaculture- and organic-farming practices. In return we provide delicious food and lodging at bamboo retreat (www.bambooretreat.in).
